Stylish and cost-effective external hard drive solution

Life is expensive enough. So why spend more than necessary when all you want is simple, easy to use additional storage capacity for your desktop computer? Look no further. The Freecom Hard Drive Classic II is a reliable, no-nonsense external 3.5" hard drive which offers large storage capacity at a competitive price. An excellent value for money proposition.

Today's world is all about Gigabytes. Programs and data take up more and more storage space. The need for installing an extra hard drive on your PC or Mac is more present than ever. Opening your computer case and installing an internal hard drive can be a difficult job. So why not take the easy route? Freecom offers you the perfect storage upgrade for your computer: the new Freecom Hard Drive Classic II, a compact, no-nonsense external 3.5" hard drive. No need to open your computer; just plug the Hard Drive Classic II into the USB (2.0 or 1.1) port of your PC or MAC and you instantly have a substantial increase in storage space. The Freecom Hard Drive Classic II is pre-formatted so you're ready to use your drive seconds after connecting it to your computer. At Freecom we create storage solutions from a consumer's perspective, where convenience, design and quality are key factors.
